Wednesday - Day off

You can decide to take a break on this day or to join us for a Mandøtur of 8 hours. The times are determined the previous evening. We pack the equipment, load the horses and drive all together to Vester Vedsted. From here we ride through the Wadden Sea to Man-dø over the 7 kilometers long Ebbevej (Low Tide Way). We ride north of the island along the marsh to Mandø village passing the storm surge column. Afterwards we ride through the village, south of the island and back home.

Monday

Sønderstrand & Banan klitten – 3 hours

The tour goes along the row of piles into the sea in which we cool the horses possibly by dipping their hoofs into the water. We follow the sea to the Bananøen where we make a short break. From the Bananøen we are able to see the island Sylt while riding. We continue passing the beach sailer and the kite buggy areas, and from here we follow the dunes to the field path and return through the wood.

Tølt check: after two days of riding, our horses with clean tølt will help us check that you got the hang of this very special gait.

Thursday

Havsand – 2 hours

We tølt at the beach and enjoy a small gallop before we go into the next row of dunes. From here we arrive at the water in which we cool the horses before we take a nice gallop at the wide beach - presenting you with the sensation of wind in your hair and the thrill in your body.

We follow the Prile before we return to the beach and make a break in the dunes

Tuesday

Havsand - 2 hours

The tour goes through the Vråby Plantation in which you may have the chance to see deer grassing while we are tølt by. We ride through the beautiful moor and tølt our way through the hilly area before we reach the beach. Here we enjoy a break, nature and something to drink.
